CRITICAL WATER SHORTAGE

Established in 2005, Vapor Ministries initiated its first ministry center in Kawangware slum, Kenya, serving tens of thousands with access to clean water, emergency food, vital health services, quality education, and Gospel-centered evangelism, equipping, and edification.

Access to clean water, through our master water well, has been a lifeline for the community. After 19 years, however, a pressing challenge has arisen due to the ongoing drought and increased demand on our aquifer, leading to dry spells in the existing well.

This water scarcity affects not only domestic use but also community facilities and revenue from bulk water sales. To address this, we urgently need to dig a new well into a 2nd confined aquifer, crucial for a consistent water supply.

The proposed well project will ensure clean water access, sustain center facilities, and revitalize our revenue sources. Your partnership will provide immediate relief and contribute to the long-term sustainability of our ministry in Kawangware. Thank you for considering our request and supporting our efforts to meet needs, feed souls, and elevate God in some of the world's hardest places.

KEEP LIFE FLOWING

KAWANGWARE WELL UPGRADE

GEOTECHNICAL SURVEY, SITE \$ 2,000

We extend our heartfelt gratitude for your generous contribution to Vapor Ministries. Your support fuels our mission to empower the most vulnerable. In the event that donations surpass the projected budget for a specific project or initiative, we assure our valued donors that any surplus funds will be redirected to further our mission. Thank you for being an essential part of Vapor Ministries and joining us to meet needs, feed souls, and elevate God.
