2021 IMPACT REPORT

Thank you!

Dear Friends,

Your giving fell giants. Your support raised hope. Your partnership grew eternity's reach. In 2021, you helped spread the gospel like wildfire and brought life to people at death's edge.

In an ever-changing season, you ensured our operations had the fuel to run Christ's love to hundreds of thousands. Together, we advanced soul transforming and life-extending care to countless people trapped in extreme poverty.

We praise God for your impact. We look forward to more ahead. Thank you for loving the poor. Thank you for advancing the gospel. Thank you for making a difference by supporting Vapor Ministries. On behalf of my family and our team, thank you!

Life is a Vapor,

Micah McElveen, Founder & CEO

LOUDER THAN THUNDER

Her body was scarred, proudly marked, and devoted. Aisosa* had long been a devout follower of both the god of thunder and the god of the snake. She held a place of prominence in her community, with many in line to serve her or seek her help. Her identity was tightly woven into her religion, and she felt she had the favor of the gods she followed. However, one day, fear and darkness roared into her world via a mysterious illness. Aisosa and one of her daughters became chronically sick. They strived desperately to please their gods, so sure their worship and prayers for healing would be answered. Futile attempts of rituals, sacrifice, and payments left them alone, with nothing, and hopeless. Aisosa felt cursed.

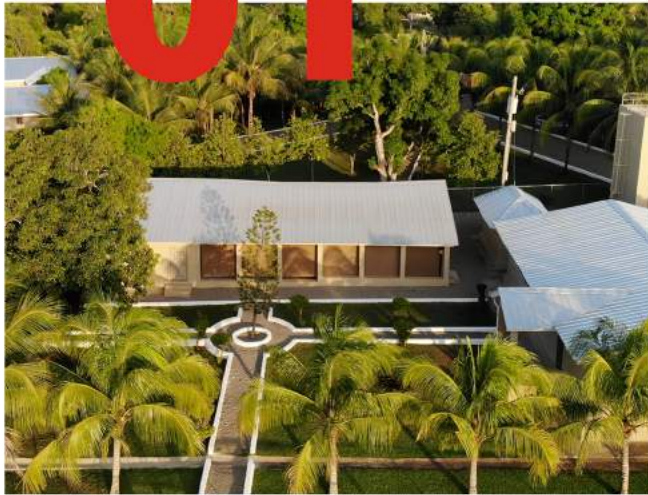

His grace rolled in louder than the thunder of the gods she worshipped. His power crushed the head of the serpent she served. God's presence appeared humbly and unexpectedly to her. Dressed in Vapor Ministries t-shirts, a group of men and women appeared bearing much-needed necessities. Aisosa sat holding her sick child, too worn down to smile or greet them. Like a calm wind, the group came to her side. She spoke of her sickness and her great loss of physical possessions and social status.

The Great Physician moved with another kind of storm that day. The Vapor Ministries team shared the good news of their God, the God who overcomes darkness with light, requiring no ritual or payment. The God who exchanges fear with peace and brings healing not just to the body but also to the soul. They laid hands on Aisosa and prayed over her and her daughter. Aisosa, moved by the God who paid the ultimate price for her redemption, placed her faith and trust in Christ.

The following day, both Aisosa and her daughter showed no signs of sickness. They had been physically & spiritually healed. When her family saw that the sickness had left, they too believed and put their trust in Christ. Praise God!

CAPITAL PROJECT HIGHLIGHTS

01 HAITI

The final build-out of our Haiti Regional Center & Hornsby Prayer & Equipping Hub ensures excellent localized outreach is sustained today while we stage global gospel expansion efforts well into tomorrow.

02 AFRICA

With a multi-ethnic team mobilized from East Africa, Haiti, West Africa and the United States a command center is well under construction. From here we hope to see poverty alleviation & gospel advancement amongst unreached & underserved West Africa to the tune of millions touched.

03 U.S.

More than revenue is generated from our stores. Amazing people are employed, developed, & mobilized. Prayers are formed & sent across the world as watchmen man the walls in our newly built out war rooms.

PROJECTS

NEW CENTER IN UNREACHED AFRICA

For too long souls have thirsted in vain. Their parched cries have gone up. Water is on its way down. We believe parched lands will soon experience the true life found when heaven rains the gospel on earth. We are believing & preparing for life-giving and soul-transforming fruit to soon pour out.

PROVISION PRAYING FOR

HORNSBY PRAYER & EQUIPPING HUBS

Strongholds fall when we work fields where battles have been won. Watchmen will man walls around the globe in war rooms while laborers are formed outside their doors. Each Hornsby Prayer and Equipping Hub will be an epicenter where heaven touches earth and multi-ethnic teams run the kingdom into the last frontiers.

HOLISTIC OUTREACH TO HUNDREDS OF THOUSANDS

To fuel the work forward funds are needed. Water, food, education, and health services spring social impact to countless souls. The truth of heaven resounds on earth as indigenous disciple-makers advance the gospel. Small businesses birth jobs and stimulate economic transformation in barren spaces. Our outreach funds bring light to death and keep hope alive for hundreds of thousands.

11.5.31

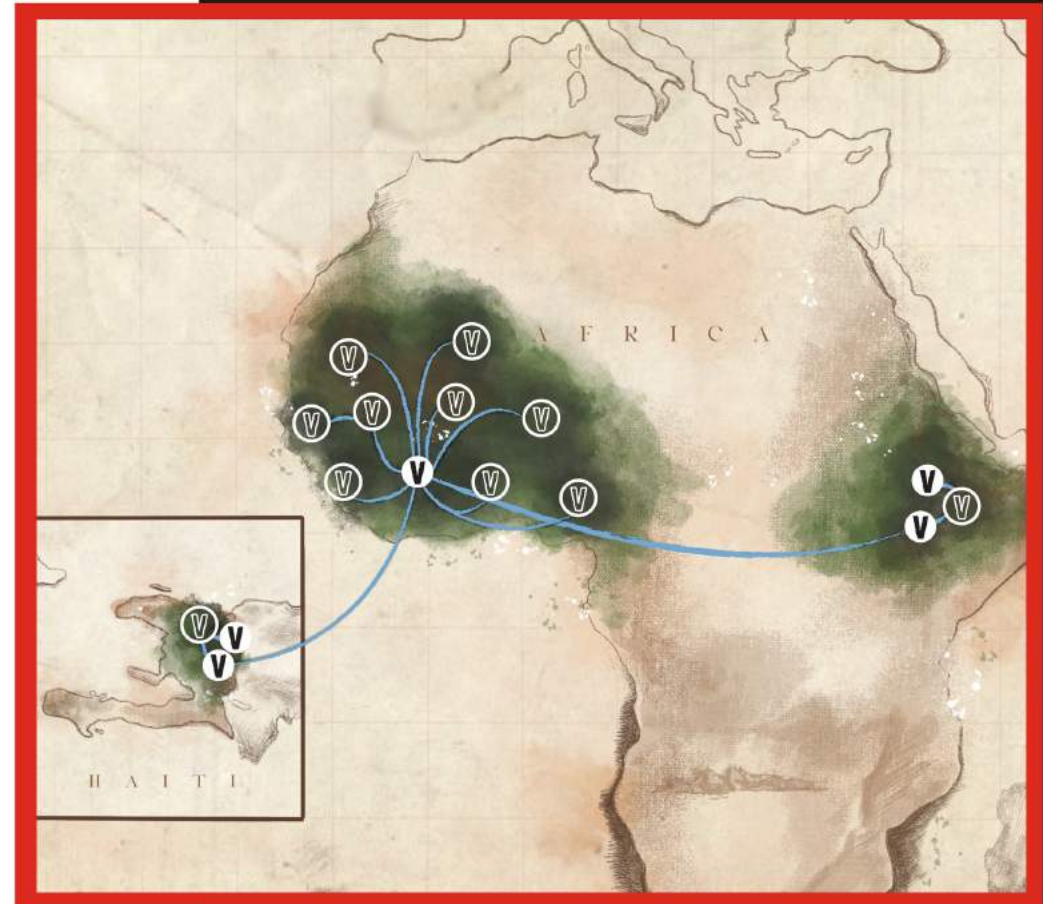

Like water, your generosity is flowing into once barren lands. Deserts are turning into fertile fields as social, spiritual, and economic harvest transforms desolate landscapes. Physical and spiritual revival abound. Human flourishing has come. What a legacy we are leaving together.

While we thank Him for all we've seen, our eyes have been drawn to famine in regions beyond our borders. Vision is stirring.

As God grants sight, we're praying for thirsty souls in parched lands. We're crying for rain to reach the living still void of true life. We sense Him leading. We aim to funnel living water into less reached and underserved peoples we've yet to touch.

Over the next 10 years, we're asking God to rain on us, to channel His goodness to millions.

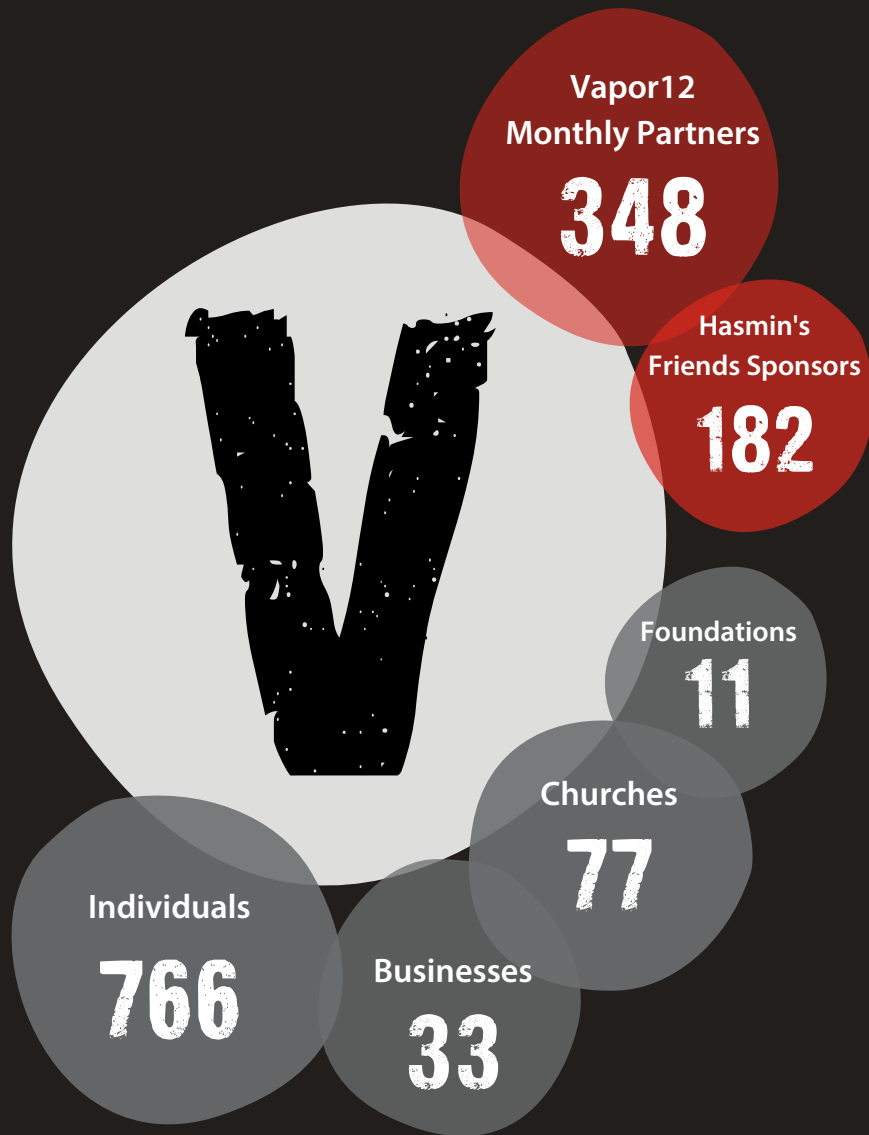

**"WHO CUTS A CHANNEL
FOR THE TORRENTS OF
RAIN... TO WATER A LAND
WHERE NO ONE LIVES, AN
UNINHABITED DESERT,
TO SATISFY A DESOLATE
WASTELAND AND MAKE
IT SPROUT WITH GRASS?"
JOB 38: 25-27**
