CRITICAL WATER SYSTEM REPAIRS

Water is given freely to people in the communities served by Vapor Ministries' centers. Most often, the water from Vapor is the only source of clean water in the area, because the cost of drilling deep enough to reach a clean aquifer is out of reach to people trying to survive extreme poverty.

The existing water tank that serves the Dilaire community, center, regional facilities, soccer pitches, farming operations, and international sustainability facilities is damaged and urgently needs replacement. Access to clean and reliable water is fundamental for the well-being of our community members, the success of our agricultural initiatives, and the smooth operation of our facilities. The replacement of the water tank is imperative to ensure a sustainable and uninterrupted water supply for various essential center programs.

We sincerely believe that your support for this project will have a lasting impact on the well-being and resilience of our community. Your contribution will not only address immediate needs but also pave the way for long-term sustainability and development.

SOLAR POWER SYSTEM

Our community faces significant challenges with electricity supply. The local utility company provides electricity for only a few days or hours per month, leaving our operations severely handicapped. Additionally, the skyrocketing fuel prices, coupled with the danger of seeking out fuel due to street violence amidst the unrest in Haiti, make the utilization of our generator both difficult and costly.

To address these issues, we propose the installation of solar power systems to provide a reliable and sustainable source of electricity for our community, center, and regional facilities. This initiative will reduce our dependence on the erratic utility supply and expensive fuel and contribute to environmental sustainability by harnessing clean and renewable energy.

SOLAR STRUCTURE, PANELS, BATTERIES, INVERTERS, & ELECTRICAL	\$ 79,000

PARTNER FOR HOPE

Like you, we are passionate about honoring God's commands to serve the poor and make disciples of Jesus. We are honored by the opportunity to present this partnership request to equip people spiritually and physically in some of the poorest communities on earth.

To that end, we ask you prayerfully consider funding these critical systems in the Haiti region.

Micah McElveen

Founder & CEO, Vapor Ministries

micah@vaporministries.org

We extend our heartfelt gratitude for your generous contribution to Vapor Ministries. Your support fuels our mission to empower the most vulnerable. In the event that donations surpass the projected budget for a specific project or initiative, we assure our valued donors that any surplus funds will be redirected to further our mission. Thank you for being an essential part of Vapor Ministries and joining us to meet needs, feed souls, and elevate God.
