# E. AFRICA CENTER IMPROVEMENTS

Our East Africa centers serve as daily places of refuge, discipleship, and service for thousands of children, youth, and adults. The following facility improvements address practical needs that help ensure our spaces remain safe, dignified, and well-stewarded environments where ministry can continue without distraction.

## Gichagi Center

### Washroom & Security Shed Door Replacement

After more than a decade of constant use, the doors serving the housekeeping washroom and the security shed are worn and no longer functioning properly. Replacing these doors will restore structure and strengthen security at the center. This simple upgrade supports daily operations while protecting people and property entrusted to our care.

## Kawangware Center

### Flooring Replacement

At the Kawangware Center, the existing terrazzo flooring has deteriorated due to 20 years of heavy use. Cracks and wear make it difficult to maintain and clean. Replacing the flooring with durable porcelain tile will create a safer, cleaner, and more welcoming space for the many individuals who gather at the center each day for programs, discipleship, and community outreach.

## Partnership Request

Thank you for your heart for the ministry and those we serve together. By helping us care for the physical spaces of our centers, you strengthen the foundation that supports long-term impact. Thank you for prayerfully considering funding these projects.

GICHAGI CENTER DOOR REPLACEMENT	\$ 2,000
KAWANGWARE CENTER FLOORING REPLACEMENT	\$ 5,500

---

<b>TOTAL</b>	<b>\$ 7,500</b>
