A STRATEGIC LOCATION. A GREATER OPPORTUNITY.

The right community. The right opportunity. The potential for lasting impact.

Vapor Thrift Stores generate approximately $8 million in annual sales, helping sustain the infrastructure behind our global ministry.

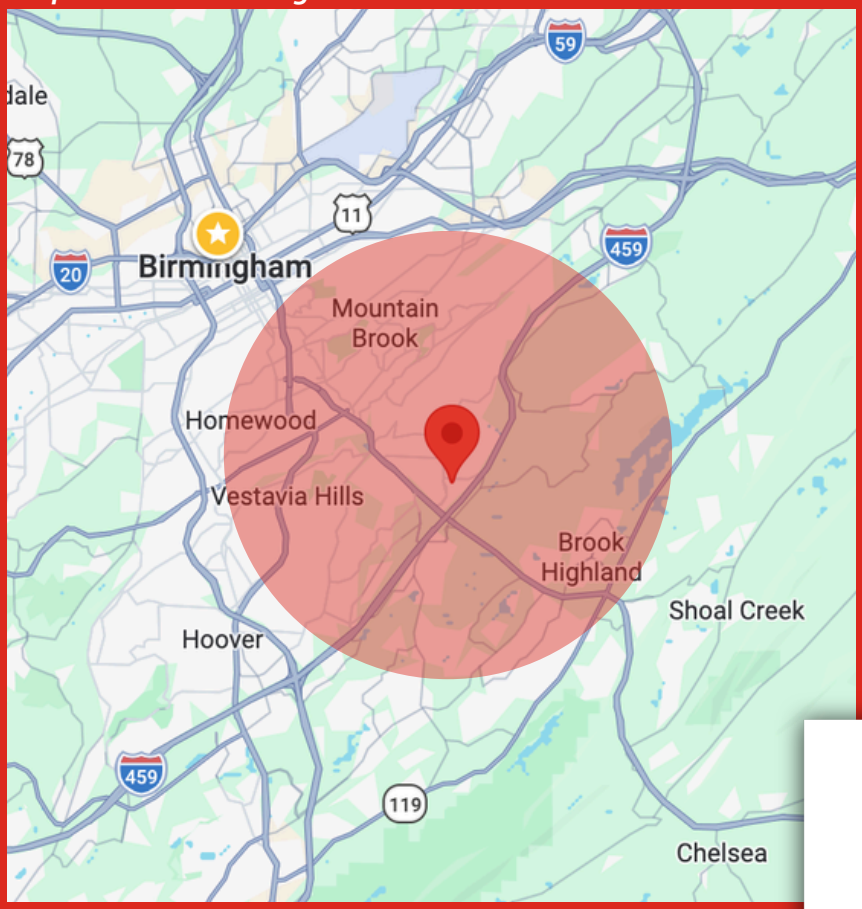

As our thrift operations grow, so does our need for a consistent supply of quality donated merchandise.

Cahaba Heights presents a strategic opportunity to meet that need.

Surrounded by some of Birmingham's most affluent communities, this location offers convenient access to households with desirable clothing, furniture, and home goods to give.

By making generosity more convenient, we can attract new donors, increase the supply of quality merchandise to our existing stores, and create opportunities for greater revenue and sustainable ministry funding.

Proposed Cahaba Heights Donation Center service area

Community	Median Household Income
Mountain Brook **Ranked among the top 30 wealthiest US suburbs*	**$ 318k**
Vestavia Hills	**$122k**
North Shelby/Hoover	**$115k**
Homewood	**$ 91k**

MORE QUALITY DONATIONS.
STRONGER THRIFT STORES.
GREATER MINISTRY IMPACT.

FROM DONATED GOODS TO TRANSFORMED LIVES

Every donated item represents an opportunity. The right merchandise, placed in the right store, can generate revenue that helps sustain ministry around the world.

The Cahaba Heights Donation Center will strengthen this process by:

- Making generosity convenient: Providing a dedicated drop-off location for residents in a high-value donation market.
- Increasing merchandise quality: Collecting desirable clothing, furniture, and household goods with strong resale potential.
- Strengthening our stores: Distributing donations where they can generate the greatest value.
- Expanding our reach: Introducing new households to Vapor's mission and inviting them into a greater story.

The result: More quality donations. Stronger thrift stores. Greater capacity for ministry.

Every bag of clothing, piece of furniture, and household item donated has the potential to become revenue that sustains Vapor's mission.

That revenue helps fund the infrastructure necessary to establish and operate outreach centers in Africa and Haiti, where Vapor provides clean water, nutritious meals, health services, educational opportunities, and the hope of the gospel.

Meet needs. Feed souls. Elevate God.

ONE LOCATION - YEARS OF GENEROSITY.

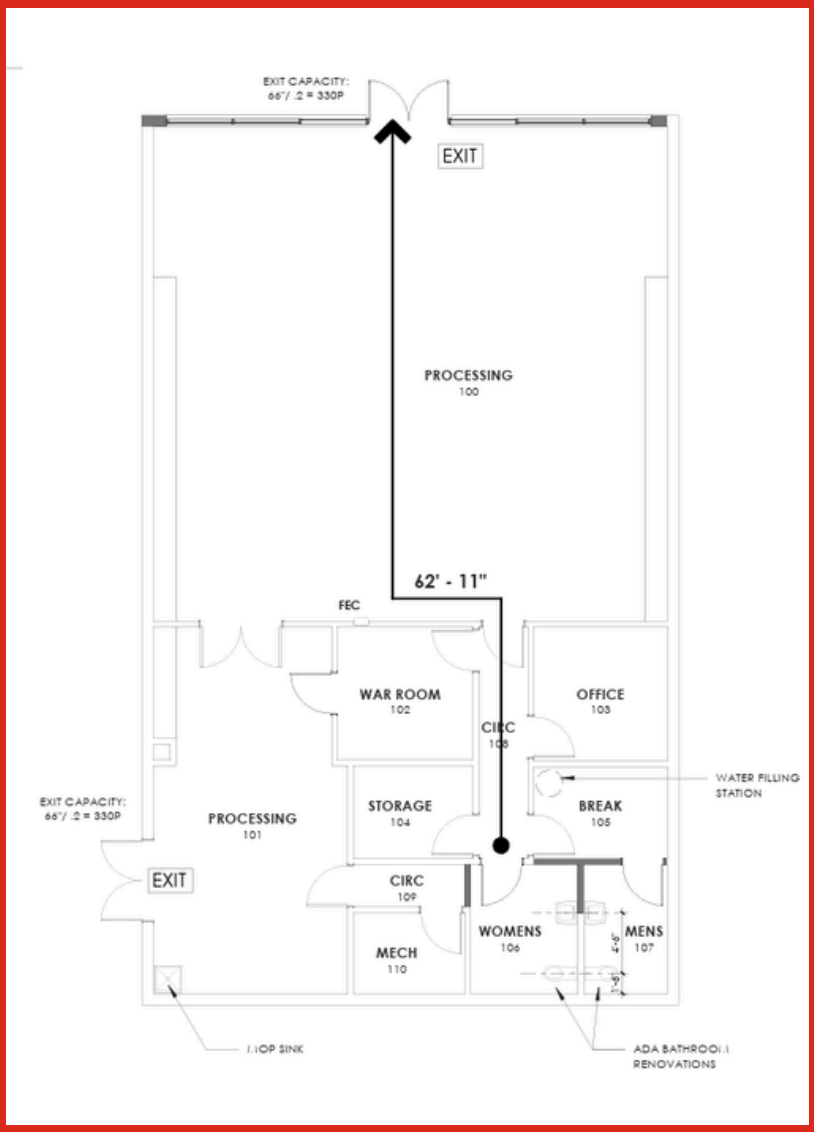

With your partnership, Vapor can transform an existing commercial property in Cahaba Heights into a welcoming donation center designed to make giving simple, convenient, and meaningful.

Located at 3253 Cahaba Heights Road, the approximately 2,470-square-foot facility will provide dedicated space for receiving, sorting, storing, and distributing donated goods.

A refreshed exterior, prominent signage, attractive landscaping, and an efficient donation experience will establish a recognizable Vapor presence in this strategic community.

Unlike a traditional thrift store, this location will focus entirely on collecting donated merchandise and supplying Vapor's existing stores.

By strengthening the supply of quality merchandise, the center is designed to increase the revenue-generating potential of our thrift operations without requiring another retail storefront.

LONG-TERM MINISTRY IMPACT

Vapor Ministries is pursuing an ambitious vision to establish 11 additional outreach centers and five additional thrift stores by November 5, 2031.

Achieving this vision will require faithful partners and a growing foundation of sustainable revenue.

The Cahaba Heights Donation Center is one strategic step toward that future, strengthening the thrift operations that help sustain our global ministry.

WILL YOU HELP MULTIPLY THE IMPACT?

A $700,000 investment will help establish the Cahaba Heights Donation Center, creating a new source of donated merchandise to strengthen Vapor's existing thrift operations.
Your partnership will help turn everyday generosity into a sustainable source of ministry funding, supporting the infrastructure that makes life-changing work possible in Africa and Haiti.

Together, we can create a resource that continues multiplying generosity for years to come.
